

One pager

Avigilon Intercom Touch

A safer way to say hello.

Intercom Touch puts video, audio, access, and an interactive directory into one sleek device at the door. It creates a safer, more professional welcome with less hardware to install and manage across every site.

→ AI-enabled camera

Turn your front door into a proactive security camera that spots suspicious behavior, sends instant mobile alerts and gives teams video evidence to investigate incidents faster and keep entries secure.

→ Smart building access

Give residents, staff and visitors a smooth welcome with a touchscreen directory, clear two-way audio, and flexible ways to answer and unlock. A built-in reader lets tenants wave, tap a phone or enter a PIN to enter.

→ All-in-one install

Simplify door hardware with a PoE+ powered video intercom, door reader and built-in access controller in one device. That way, you wire less devices, install faster and manage it all from the Alta dashboard.

MOTOROLA SOLUTIONS

Smart infrared camera

5MP IR camera with analytics delivers proactive, 24/7 monitoring and clearer evidence at the door.

Visitor QR entry

Use Alta Visitor so guests scan a time-limited mobile QR code for secure, touchless entry.

Multi-technology door reader

Supports mobile wallets, high and low-frequency credentials, plus Wave to Unlock using radar to detect intent.

Dual LED lighting

LEDs on the top, bottom, and front illuminate faces and the entryway for reliable identification in low light.

Clear two-way audio

Noise-cancelling cuts wind, traffic and background noise so conversations stay clear at the door.

7" Interactive touchscreen

Impact-resistant touchscreen directory that doubles as a secure keypad to guide visitors and control entry.

Personalized welcome

Customize backgrounds, messages, and button layouts so the intercom matches your brand.

Durable hardware

IP65 weatherproofing and IK08 impact ratings protect the device from rain, dust and heavy use.
