

Driven by

IP Security

IP cameras, video management, and intrusion detection for comprehensive protection.

SOLUTIONS CENTRAL

www.mayflex.com

Leading distributor specialising in infrastructure, networking, and IP security solutions.

With a relentless **drive to deliver more**, we go beyond simply supplying products - we provide tailored solutions that help businesses unlock their full potential. Our entrepreneurial spirit, deep industry expertise, and commitment to sustainability make us the trusted partner for organisations looking to innovate, grow, and stay secure in a rapidly evolving digital landscape.

We understand with converged IP technology and the Internet of Things, far more devices are being connected to the network to improve efficiencies, safety, health, use of time and energy and to reduce costs. At Mayflex, **we're here to help** you choose the products you need for a robust and secure network.

About Mayflex and Sonepar

In April 2015 Mayflex was acquired by Sonepar, an independent family-owned company with global market leadership in B-to-B distribution of electrical products and related services.

Config Services

Offices in Birmingham, St Neots, London, Dubai and Saudi Arabia

Driven by Security

We bring together deep technical expertise, a carefully curated portfolio of best-of-breed security brands, and a commitment to exceptional customer support.

Whether you're installing CCTV, Access Control, or Intruder Detection systems, our solutions are designed to deliver reliability, performance, and peace of mind.

Our team is trained to provide informed guidance across every stage of your project, backed by extensive stock

availability and a suite of value-added services - including pre-configuration, testing, and hands-on demonstrations at our M-Tech facilities in Birmingham and London. We don't just supply products - we help you deliver successful installations and build long-term partnerships.

What's in our Security Range?

Cloud Video and Access Security Solutions

Protect people, property and data anywhere with an open cloud-native approach.

IP Cameras

IP Surveillance products suitable for the smallest of sites through to multi location solutions.

Access Control & Video Door Entry

Cloud and IP network-based door access solutions with policy-based management software.

Body Worn Cameras

Protect frontline workers with a choice of body worn cameras and sensors.

Video Management Software (VMS)

Take full control with open platform IP video management.

Image Recording and Storage

Record, store and access your data and images locally or remotely in an easy and bandwidth efficient manner

Transmission

The nuts and bolts to any application, we have a range of quality products to suit any need.

Infra-red and 'white light' Illuminators

Don't get left in the dark, illuminate your images with our lighting options.

Intruder Alarms

Professional wireless intruder alarms.

Security Vendors

AMG

is a UK Manufacturer of Industrial and Commercial Grade Network Transmission products.

Avigilon Alta

is a fully cloud-native security platform designed to modernise your video surveillance and access control. Avigilon Alta combines advanced analytics with future-ready capabilities to keep your organisation secure and agile.

Avigilon Unity

delivers video security, access control, and flexible cloud management all combined into one centralised and scalable on-premise solution.

Axis

is the global market leader in network video with products and solutions based on innovative, open technology platforms that focus on security surveillance and remote monitoring.

Gardner Engineering

is a leading British manufacturer of high-quality CCTV mounting solutions, offering a wide range of products including monitor mounts, camera brackets, swivel mounts, drop poles, bollards, and more - all engineered to the highest standards.

Hikvision

is a provider of innovative security products and solutions which advance the core technologies of audio and video encoding, video image processing, and related data storage.

Milestone Systems

is the global industry leader in true open platform IP video management software.

Mobotix

is a leading pioneer in network camera technology founded in 1999. Their decentralised concept, has made high-resolution video systems cost-efficient.

Paxton

design and manufacture market-leading security solutions for a range of buildings for over 30 years. Around 25,000 buildings each year are secured globally with Paxton products.

Security Vendors

Pelco

is a global leader in the design, development, and manufacture of predictive video security solutions, including video surveillance cameras, video management and recording systems, security software, and aligned services.

Raytec

manufactures Infra-red and 'White Light' illuminators using the latest surface mount LED technology.

Secure Logiq

design servers specifically for HD surveillance with the fastest performance, the biggest storage, the most resilience and the best value.

STP

offers a comprehensive range of high-quality door and security accessories designed to complete and enhance any CCTV or access control installation.

Suprema

is a leading global provider of biometrics and security technology. By combining world renowned biometric algorithms with superior engineering, Suprema continually designs and develops industry leading products and solutions.

Veracity

manufactures and designs innovative transmission, surveillance storage and display products, primarily for network video applications, which elegantly solve real-world IP video problems and support the evolution of mega-pixel video surveillance.

VSS

specialises in offering video appliances that are pre-engineered with Milestone XProtect®, Seagate Skyhawk surveillance-grade drives and its state-of-the-art Storage Accelerator.

Complementary Infrastructure and Networking Solutions

Any security installation needs a solid reliable, infrastructure foundation to ensure the best results.

At Mayflex we have a long history of specialising in infrastructure products. We are distributors for the following brands:

	<p>AEM</p> <p>is a global leader in Ethernet test and measurement solutions and provide a range of award winning testers, with multiple features and benefits. The testers are approved for use by most leading cabling vendors.</p>
	<p>Aura</p> <p>offers a range of Audio and Visual cables and connectivity brought to you by the team at Mayflex. Aura brings a different approach to an established market.</p>
	<p>Excel</p> <p>is a world-class premium performance end-to-end infrastructure solution – designed, manufactured, supported and delivered – without compromise. The range includes copper, fibre, racks, PDUs and FTTx solutions.</p>
	<p>Elevate</p> <p>is a brand focused on data centre solutions including fibre, racks, aisle containment, cooling, intelligent power and DCIM.</p>
	<p>Fluke Networks</p> <p>is the world-leading provider of network test and monitoring solutions to speed the deployment and improve the performance of networks and applications.</p>
	<p>Ruijie Reyee</p> <p>are a global industry-leading manufacturer for Wired and Wireless network infrastructure products and solutions.</p>
	<p>Uniti Power</p> <p>is a leading name in Uninterruptible Power Supply (UPS) solutions.</p>

A Solid Infrastructure Foundation

If you're installing Video and Access control solutions you need a solid, standards compliant foundation for your network.

That's where Excel comes in.

Excel is a brand owned and developed by Mayflex.

Excel was the first infrastructure brand to **remove single-use plastic** from its products – since 2019 this has saved more than 122.5 million plastic bags from entering the supply chain and ending up in landfill.

Excel offers a **25-year product and application warranty** as standard on all installations completed by an accredited Excel Partner.

Talk to the security sales team on **0121 326 2228** for competitive prices for your infrastructure requirements.

Config Services

Our comprehensive Config Services are designed to provide flexible support when you need it most - whether that's stepping in to ease your workload or saving you valuable time on site by ensuring everything is fully prepared and ready to go before shipment.

Pre-Staging IP Devices

Products include: IP Cameras, servers, recorders, DVRs, storage units, IP access control systems, servers, components and network switches.

Features: Loading IP addresses, software, updating software/firmware, setting of parameters and passwords, device labelling, DOA and Soak testing.

Camera & Bracket Spraying

Spray the cameras to match the environment they are being installed in. We offer a bespoke colour matching service if a colour sample is provided or we can match any RAL colour.

Product Labelling

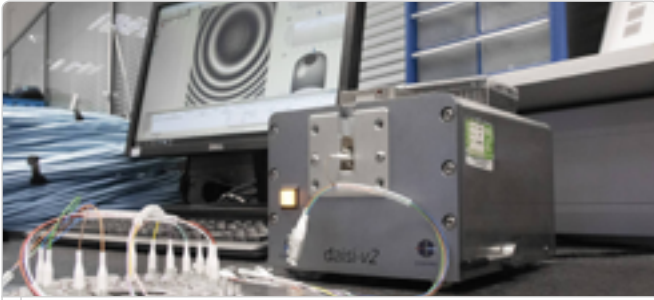

Laser-engraved labels printed to your specific requirements on fade proof acrylic which leads to long term quality and reliability.

Products that can be labelled include: cameras, IP devices, cabinets, patch panels, GOP boxes, outlet modules and other pre-terminated solutions.

Pre-Terminated Copper Assemblies

Features: Available in Category 5e, 6, 6A and 7A – Screened (FTP) or Unscreened (UTP), pre-labelled, single assemblies or loomed keystone jack panels, labelled panels

Pre-Terminated Fibre Assemblies

Features: Available in OM1, OM2, OM3, OM4, OM5 and OS2, available in all core counts from 2 to 24, machine polished, pre-labelled, fitted with protection both ends, plug and play.

Configured Racks

We can install most of the kit that you need and deliver it ready configured to site.

Features: PDUs – horizontal & vertical, fan trays, patchcord/cable management, shelves - all types and pre-labelled.

On Site Cabinet Assembly

Flat packed racks are delivered to site, our team will visit the location, position the rack(s) and build them to the agreed specification.

We can provide a full Q.C inspection of the built rack(s) and provide a handover to customers along with providing method statements and risk assessments.

AEM Support Services

Mayflex's AEM support team are on hand to help you with managing your AEM testers, including organising the annual calibration, providing technical support and the hire of an AEM tester if required at any point.

Fluke Support Services

Available to all customers who purchase a Fluke Networks unit with gold support via Mayflex. The Mayflex team will act as a single point of contact between yourself and Fluke networks to book such things as calibrating your unit and arranging any repairs.

Visit our website for more information.

Instantly connect with our Sales and Servicing teams via our Live Chat facility.

Request a Call Back

Prefer to speak to someone? You can request a call back if you're holding to speak to an agent.

BUY NOW Option

All quotations include a **BUY NOW button** - making ordering quicker and easier.

Delivery Options to Suit You

We're committed to delivering more at every step, making your experience with Mayflex as straightforward and seamless as possible.

Next Day Free Delivery

Our standard next day delivery is free of charge to the UK Mainland – deliveries will be made any time between 7.00 a.m. and 6.00 p.m.

FedEx Delivery Options

Need to tweak your delivery? You can self-serve changes on dispatch day - leave with a neighbour, add driver instructions, or choose a secure drop-off spot.

2-Hour Delivery Window for Pallets

For palletised deliveries, enjoy tighter delivery slots and proactive delay notifications - keeping you informed every step of the way.

Not Available when Drivers Arrive (FedEx)

FedEx will now take a photo of the delivery point where they attempted delivery.

Track Deliveries & Access PODs

Monitor your deliveries and access Proof of Delivery documents online.

Timed Deliveries

If you need a next day delivery urgently, we can offer you a pre-10.30 or pre-12.30 delivery at highly competitive rates.

4-Hour Delivery Window (FedEx)

For your standard next day deliveries we've introduced a 4-hour delivery window, with a 2-hour option coming in Q4 2025, so you will know when to expect your goods.

What3Words Integration

Pinpoint your delivery location to within 3m² - ideal for timed or complex drop-offs.

Trade Counter Collections

If you're in Birmingham or passing through, then you can pick up your orders from our trade counter that's open from 6 a.m. to 6 p.m. To avoid waiting for your collection, we can even text you when your order is ready.

Customer Services and Technical Support

Our experienced teams are on hand to help you whether that's by the phone, email, SMS or Live Chat.

Customer Services

Phone: **0800 093 1202**
