All together.

MAYFLEX
A Sonepar Company

At Mayflex our reputation is founded on our dedication to providing a quality service in every aspect of our business. Backed by over 100 years of industry experience, we have a respected name and a proven track record in partnering installers and integrators.

Designed with our customers in mind we offer a range of services, which are ideal for projects with limited time available onsite for installation or for rapid deployment projects. Having a trusted partner that can deliver fully tested, readymade or ready configured and pre-assembled solutions helps remove that pressure. Our range of Specialist Support Services are carried out by our team of trained experts who are located in our Birmingham headquarters and can also be carried out on site, by our team, (for the configured cabinet on site build service).

By providing installers with pre-tested, pre-qualified products, we are helping them to deploy products faster and help them to reduce their costs by removing the need to invest in specialist equipment, labour and management costs.

Risk of any issues arising can be significantly reduced or even removed by utilising the range of support services which are only provided to trade partners available from Mayflex.

Product Labelling

We can provide the highest quality laminated, laser-engraved labels printed to your specific requirements and shipped the same day, or we can provide the labels pre-printed and installed onto products.

Products Include:

Cabinets, patch panels, GOP boxes, outlet modules and other pre-terminated solutions.

What are the benefits of Laser Engraved Labels?

- + Ensure that every application is professionally labelled from the moment it is installed
- + Save valuable time on-site
- + Engraving labels on to fade proof acrylic leads to long term quality and reliability
- + Bespoke, made to measure for individual project requirements

Features:

- + 2-colour laminate sheets
- + Acrylic composition
- + Strong adhesive backing
- + Range of colours, shapes & sizes
- + UV resistant
- + Laser engraved
- + High quality
- + Same day despatch

ENVIRON

Speak to our team on 0800 75 75 65 or e-mail sales@mayflex.com for further details

On Site Cabinet Assembly

This service is ideal where access to the installation site is restricted or you have limited time on site.

How it Works

The Environ racks (flat packed), together with any additional accessories that you've ordered, including shelves, cable management, PDUs etc would be delivered to site by our normal delivery service the day before the planned installation. Our experienced team of cabinet builders will visit the location and will position the rack(s) and build them to the agreed specification.

Features

- + We will fit shelves, cable management and PDUs if required
- + We will provide a full Q.C. inspection of the built rack(s) and provide a handover to the customer
- + We can provide method statements and risk assessments, including an advance assessment provision, should they be required
- + Our team will include a first aider and CSCS certification if required

Information Required

- + How many cabinets are required to be assembled?
- + Site address including post code
- + What time would we be required on site?
- + Is a site induction required prior to commencement of works?
- + Required dates for site attendance

Placement Plus

Our Placement Plus delivery service easily overcomes tight staircases and difficult access routes without damaging any fragile equipment.

Utilising stair walking, stair climbing and stair lifting equipment, as well as cranes and hoists when required, this service has the resources to overcome the most challenging locations.

Transportation crews are expertly trained to use the latest moving equipment, to safely manoeuvre your equipment without disrupting its contents or components.

Placement Plus provides:

- + Double manned vehicles
- + Drivers maintain constant communication via mobile phones
- + Constant monitoring of movements by Operations
- + Goods Tracking Procedure incorporating unique referencing system
- + Crews will provide maximum support and minimum disruption in the installation of your rack
- + Remove all packaging
- + Dispose of any items in accordance with environmental and waste regulations.

Speak to our team on 0800 75 75 65 or e-mail sales@mayflex.com for further details

AEM Support Services

Mayflex's AEM Support team are on hand to help you with a range of services relating to your AEM devices.

Outlined below is an overview of what is included with our offering, but if you need any further guidance, please contact us.

The services include:

- + Confirm your calibration due date with you, and arrange for your unit to be calibrated and collected on a day to suit you
- + Act as a single point of contact between yourself and AEM
- + Support you in contacting the AEM Technical Team to ensure you receive a response in the quickest time
- + Provide full technical support for all your equipment via our UK Technical Support Team
- + Arrange the collection and repair of a faulty unit on your behalf, and ensure your unit is returned to you in the shortest timeframe
- + Organise a replacement accessory for a unit with a failed component
- + Manage an advanced booking system to schedule your calibration at least 6 weeks in advance for optimum convenience and if required, we will arrange a loan unit whilst your tester is in calibration to ensure you're not without a tester

What does this service cost?

Absolutely nothing. Mayflex is providing this service to all customers who purchase an AEM tester through Mayflex.

All of the CV100 Testpro kit bundles come with the extended 3 year care plan as standard. The NSA range is covered by a 2-year manufacturer's warranty.

Hire an AEM Tester

Mayflex offers a Hire Service on a range of AEM Certification, Troubleshooting and Installation Tools, capable of testing Category 5e to Category 8 and Fibre Optic infrastructure.

With a range of rental options at the fraction of the cost of purchasing a tester unit, this is an alternative cost-effective solution to meet your testing and certifying requirements. Save yourself the cost of purchasing a new tester unit or try out the latest tester before committing to buying one.

[Click here](#) to find out more about this service.

How to claim if you have a fault

Simply provide our team with your unit's serial number(s) and a description of the fault. We will handle the rest.

For further information on our AEM Support Service, please contact the team

Fluke Support Services

The Fluke Support team are on hand to help you with a range of services relating to your Fluke Networks' devices.

The services include:

- + Confirm your calibration due date with you, and arrange for your unit to be calibrated and collected on a day to suit you
- + Act as a single point of contact between yourself and Fluke Networks
- + Support you in contacting the Fluke Technical Team to ensure you receive a response in the quickest time
- + Provide full technical support for all your equipment via our UK Technical Support Team
- + Arrange the collection and repair of a faulty unit on your behalf, and ensure your unit is returned to you in the shortest timeframe
- + Organise a replacement accessory for a unit with a failed component
- + Manage an advanced booking system to schedule your calibration at least 6 weeks in advance for optimum convenience and if required, we will arrange a loan unit whilst your tester is in calibration to ensure you're not without a tester.

This service is available to all customers who purchase a Fluke Networks unit with Gold support via Mayflex - and is free of charge.

- + Hire a Fluke tester, as and when you need one, at a fraction of the cost of buying one.

How to Claim if you have a fault

- + Provide our team with your unit's serial number(s) and a description of the fault.
- + Mayflex will liaise with Fluke Networks on your behalf to arrange a replacement unit, a replacement accessory, a calibration booking or a collection, a loan unit or anything else you may require

Mayflex Website

The Mayflex website is a great source for information on Mayflex and the full portfolio of vendors that we sell and support. You can find products easily through the online catalogue via a part number, navigation or key search terms.

Each product includes a specification sheet and downloads such as DOP's, relevant videos, etc.

Through the Mayflex Webshop you can:

- + View your pricing, specific to your account
- + Produce online quotes
- + Quick EDI, upload a list of product codes and quantities to place your order
- + Set up 'Favourites' lists for items that you order on a regular basis
- + View your invoice history
- + Track the status of your order
- + Check your credit limit, account balance and term
- + View product promotions online

Visit the website – www.mayflex.com
