

Smart access control
and door entry systems

Product Selection Guide

3 Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

- 4 Wired Controllers - Net2 Plus
- 5 Wireless Controllers - Net2 Nano
- 6 Wireless Controllers - PaxLock Pro
- 7 PaxLock Pro Components
- 8 Wireless Controllers - Net2 PaxLock
- 9 Net2 PaxLock Components
- 10 Building Control - I/O Board
- 11 Net2 Readers
- 15 Net2 Tokens
- 17 Net2 Software
- 18 Accessories & Other Components
- 20 Demonstration Products

21 Access Control & Video Management

Our single platform solution combining access control and video management. Supporting a simple migration path from Net2, Paxton10 is an ideal solution to futureproof site security.

- 22 Paxton10
- 23 Integration
- 24 Cameras
- 25 Readers and Tokens
- 26 Software and Apps

27 Door Entry

Our door entry system, Entry, is an advanced PoE door entry system with built-in access control capabilities.

- 28 Entry System Components
- 31 Demo Cases

33 Standalone Access Control

Our standalone access control is a non-networked system made up of readers or simple door controllers located at each door. Standalone systems are administered via the use of tokens or card packs.

- 34 Switch2
- 35 Switch2 Readers
- 38 Compact
- 40 Standalone Tokens
- 41 Standalone Accessories

43 Additional Information

- 44 Distributors - Where to Buy

Welcome

This Product Selection Guide is designed to help you to choose the right products to build up an access control system.

Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

What's new?

Paxton10

Paxton10 is a single platform solution combining access control and video management. It is a versatile solution that supports multi-site management and remote access. Scalable from 1 to 1000 doors, and 1 to 1000 cameras, Paxton10 is suitable for all building types and sizes.

- ▶ Easy to quote and configure, build a complete system with just five components
- ▶ Manage multiple sites on a single system remotely
- ▶ Web-based user interface with no configuration required
- ▶ Custom dashboards to suit any user requirements
- ▶ Built in **Bluetooth®** to use phone or smart watch smart credentials
- ▶ Works with Entry and PaxLock Pro

See page 21

Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

- ▶ Net2 is Paxton's flagship access control product
- ▶ A powerful networked system that addresses the needs of the mid-market
- ▶ Modular approach for simplicity and scalability
- ▶ Simple intuitive software
- ▶ Range of features that move beyond basic access control
- ▶ A complete solution that encompasses wireless and door entry

Net2 plus Wired Controller

- ▶ A networked IP ready single door controller
- ▶ On-board TCP/IP connection allows direct connection to a network
- ▶ Can connect together with dedicated RS485 network

Building Control - I/O Board

When a valid fob is presented to the reader, the I/O board can be programmed to trigger the power to lighting, heating and electrical equipment.

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control power to lifts, lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

- ▶ Connect directly to a LAN/WAN only
- ▶ Enable integration with lifts, lighting, heating and more
- ▶ 4 inputs and 4 outputs on the Net2 I/O board

 Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.

Net2 I/O board

Sales code 489-710 Price £245.00

Net2 I/O board - Plastic housing

Sales code 385-710 Price £260.00

Paxton Connect

Paxton Key App

Paxton10 Software

A web-based user interface that is intuitive and easy to use.

Accessible from any device with an internet connection, the interface makes remote site management simple. The software comes as a native part of the system with a Paxton10 server. It has a range of intelligent features to maximise efficiency and optimise the combined access and video management solution.

- ▶ Web-based software – no installation, plug-ins or upgrading required
- ▶ Free of charge – simple online updates with no ongoing charges
- ▶ Suitable for touchscreen and desktop devices
- ▶ Optimised for use on PCs and tablets
- ▶ Low battery alerts, easy to monitor back up battery state
- ▶ Flexible and secure remote access

Features:

Dashboards - Customised dashboards to suit any user requirements

Reports - Powerful reporting engine where all system events and videos can be reviewed

Site plans - For the visual management of the system

Tutorial wizards - Support new and existing users to make full use of the software

People - Manage user permissions, credentials and information

Rules - Set permissions, time profiles, triggers and actions and much more

Devices - Configure and manage the devices in a building

Paxton10 Apps

Paxton Connect

Flexible site management

The Paxton Connect app provides easy and flexible site management for Paxton10. Containing easy to use features in one smart user interface, Paxton Connect enables you and your customers to manage multiple sites remotely from a smartphone.

Features:

People - Manage user permission, credentials and information

Reports - Access all system reports from your smart device or tablet

Devices - Configure and manage all devices on site

Dashboards - Access custom dashboards for personalised system overview

Paxton Key

Utilise smart devices as access tokens

The Paxton Key app allows system users to make use of their smartphone, smartwatch or tablet in place of traditional tokens. These are called smart credentials and can be issued free of charge. Utilising the built-in Bluetooth® wireless technology in Paxton10 readers, the smart device can securely communicate with the Paxton10 system to grant or deny access. Paxton Key also enables the user to carry out predefined building management functionality – such as setting the intruder alarm.

Download the free apps from the **App Store** or **Google Play**

Door Entry

The Entry system works standalone or alongside Net2 or Paxton10 to combine door entry with access control. Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.

- ▶ Just three components - monitor, panel and door controller
- ▶ Premium, standard, audio, and vandal resistant solutions available
- ▶ Intruder alarm integration - set the alarm in Net2 from the Entry panel for extra convenience
- ▶ Pan/tilt camera functionality to capture an angled view
- ▶ Low light sensitivity camera - ideal for use day or night
- ▶ SIP compatibility - the door can be answered from smartphone, tablet or PC
- ▶ Add a secondary IP camera for higher security sites

Entry

A smart, simple door entry system.

- ▶ Panels available in three variants: the Entry Touch panel with an advanced 7-inch colour touch screen, Entry Standard panel in anthracite grey and the Entry VR panel in super durable stainless steel
- ▶ All variants available in flush, surface and rain-hood versions - suitable for a range of environments
- ▶ Three monitors available, including premium, standard and audio, to create a custom solution for any site
- ▶ Personalise the Entry Touch panel, Premium monitor and Standard monitor with multiple theme options and contact images for quick visual recognition
- ▶ Video voicemail, enables visitors to leave a video message
- ▶ Add a secondary IP camera for higher security sites
- ▶ Reads Paxton and MIFARE® token technology

* Indicates readers that have functionality to read HID™ 125kHz Proximity tokens, when enabled using Genuine HID Technology™ 125kHz. Proximity activation licence cards sold separately (see Tokens section, pg.14).

NEW

Entry Standard Monitor

The latest addition to our door entry range. The new standard monitor is fully compatible with Paxton10 and Net2, as well as working as part of a standalone door entry solution.

- Excellent audio quality, full-duplex voice communication & easy read, high contrast screen
- Personalised experience with 14 theme designs. Premium user interface with call & event log
- Action buttons, call snapshot and compatibility with concierge management*
- Available with or without a handset. Universal wall or desk mounting
- Quick and easy installation, providing a true plug and play solution

*When used with the Entry Premium monitor. The standard monitor cannot function as the concierge monitor.

Demo Cases

Demo cases contain everything you need to demonstrate a one door system to your customers.

Additionally, show your customers the benefits of our simple video door entry solution in just two minutes, with the new Entry video. Watch it here: <http://paxton.info/3019>

* Indicates readers that have functionality to read HID™ 125kHz Proximity tokens, when enabled using Genuine HID Technology™ 125kHz. Proximity activation licence cards sold separately (see Tokens section, [pg.14](#)).

Demo case * Entry - Touch panel

The case includes a Entry Touch panel, Entry Premium monitor and a sample pack of Net2 demonstration tokens.

Sales code	Price

Demo case * Entry - Standard panel

The case includes a Entry Standard panel, Entry Standard monitor and a sample pack of Net2 demonstration tokens.

Sales code	Price
337-430	£495.00

Standalone Entry system does not require connection to a network or server

NEW Entry now works Standalone

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to an online Net2 solution, with no hidden costs.

- Enable offline token-based access control on any Entry site
- Simple user management utilising Paxton's standalone functionality
- Upgrade existing standalone sites with video door entry for extra convenience
- Combine with other Paxton standalone products to build an entire easy-to-use system supporting the same tokens across the site
- See Standalone card packs on [page 40](#)

Watch the New Entry Video

Show your customers the benefits of our simple video door entry solution in just two minutes, with the new Entry video.

- ▶ Featuring the whole Entry range, including the new touch panel and premium monitor
- ▶ Just 3 components that auto-detect on set up
- ▶ Discover a scalable solution that suits a variety of locations

Watch it here:
<http://paxton.info/3019>

Standalone Access Control

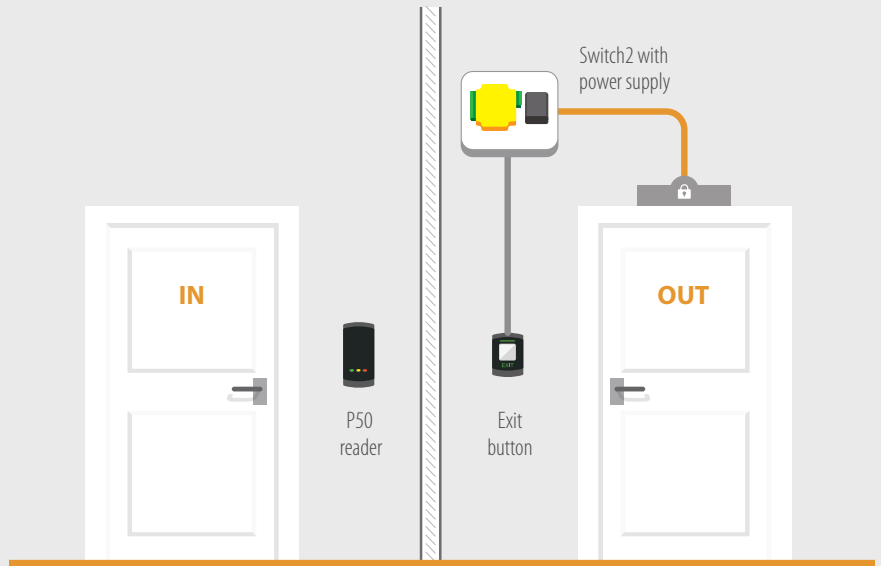

Standalone access control is the simplest way to secure and control access through doors around your building. If you're looking to step up security, protect your staff and assets and save money, then Standalone access control is for you.

- ▶ A non-networked access control solution
- ▶ Simple and unique card management system
- ▶ Internal (Compact)/external (Switch2)
- ▶ Suitable for small to medium sized premises, or any site looking to secure a small number of doors
- ▶ Entry and PaxLock Pro now work in standalone mode

Switch2

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users' movements provided by a PC based access control system.

Switch2 controller

Sales code	Price
405-321	£90.00

Switch2 controller -
12V 1A PSU, Plastic housing

Sales code	Price

Entry

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to work with Net2, with no hidden costs.

See page 32 for more information

PaxLock Pro

The latest addition to our range of wireless access control solutions, in a door handle can also be installed in standalone mode for use on sites not requiring the additional functionality of an online system. It's flexible upgrade path from standalone to networked creates a solution which can evolve with the needs of your customer. Internal and external versions are available in both black or white.

See page 6 for more information

Free installer training

We offer practical training for installers for our complete range of networked, standalone and door entry products. Sessions are designed to provide you with the essential knowledge needed to install Paxton products quickly and efficiently.

- ▶ Ensure accurate installation
- ▶ Reduce time on site
- ▶ Courses are free of charge
- ▶ Materials and equipment provided

For more information and to book a session, go to <http://paxton.info/1940>.

End-user training is also available; for more information and pricing, contact training@paxton.co.uk.

Industry leading technical support

Call Paxton and you will be put straight through to our expert support team, based at Paxton House. Our friendly team are available from 7am-7pm Monday-Friday, and 9am-1pm on Saturdays.

Call : 01273 811011
 E-mail : support@paxton.co.uk
 Skype : paxton.support

Sales literature

We offer an extensive range of brochures and sales guides to support you every step of the way, from sales to specification. All documentation is available to download from our website at <http://paxton.info/474>.

Case studies

Find out how the Net2 system can be adapted to meet a range of diverse requirements by reading our latest case studies. We have a range of examples covering education, healthcare, retail, leisure, commercial and public buildings.

See our latest case studies here:
<http://paxton.info/3016>

Net2 Integration

As UK market leaders in access control, Paxton want to ensure that we are providing the most sophisticated solutions available. We do this by working with quality manufacturers to provide the best of breed solutions and making them available to you. You can see a map of our Net2 integration partners at <http://paxton.info/2487>.

Paxton 5 Year Guarantee and Hassle Free Returns Policy

We offer a five year guarantee on all our products*. If a problem arises, follow these three simple steps and we will get your return sorted:

1. Call into Support if a problem arises on site, Support will then troubleshoot the issue.
2. If the issue cannot be solved, you will be supplied with a returns number.
3. Within 30 days you can either:
 - a. Send the product directly to Paxton with the returns number for an exchange
 - b. Return to your distributor for an exchange

*Unless otherwise stated

Distributors - Where to Buy

Our UK distributors are listed below. We regularly review their stock and make sure that it is up-to-date, correctly stored and free from defects. To ensure the quality of your Paxton system, we advise that you purchase only through a franchised distributor.
