Introducing Avigilon Cloud Services

Avigilon Cloud Services (ACS) introduces a versatile way to remotely access Avigilon Control Center (ACC) sites. With ACS 3.0, they now offer a cloud-connected ACC experience that makes it incredibly easy for customers to use their Chrome or Safari web browser to securely access ACC over the internet to:

- View live video
- Review recorded video
- Review bookmarked video and manage bookmarks

- Control PTZ camera movements
- Trigger digital outputs
- Export video to MP4 format

Avigilon H5A Explosion-Protected Camera Line Now Open for Pre-Orders

Avigilon H5A Explosion-Protected cameras are certified for hazardous locations according to applicable international standards. They are purpose-built for efficient operational monitoring and control of processes in environments that face the risk of explosions due to the presence of flammable gases or dust, including oil and gas, marine, industrial and food production sites.
