AVIGILON™
a Motorola Solutions Company

Bank Safety and Security

Our complete video surveillance and access control solutions help protect against theft and fraud while safeguarding what's most valuable—your customers and staff.

Radar Detection

The Avigilon Presence Detector (APD) sensor's self-learning radar analytics accurately detect the presence of a person within enclosed spaces, even if they have stopped moving or are hidden.

Efficient Bandwidth Management

Avigilon's High Definition Stream Management (HDSM)™ and HDSM SmartCodec™ technologies reduce bandwidth and storage needs while maintaining image quality.

Real-time Notification

Self-learning video analytics provide instant alerts to help detect people or vehicles in areas of interest, enabling improved response times in active situations.

Powerful Search

Avigilon Appearance Search™ technology sorts through hours of video with ease to quickly locate a specific person or vehicle of interest across all cameras in near real-time, enhancing detection and investigation.
Controlled Movement

Avigilon's Access Control Manager (ACM) system enables you to improve regulation of all main access points within a facility, limit access to restricted areas and initiate immediate lockdown from a centralized location.

Avigilon Solutions for Banking

Avigilon Control Center (ACC) Video Management Software
Allows quick and easy review of live or recorded video with a simplified screen layout, intuitive controls and self-learning video analytics. Also features Avigilon Appearance Search technology to help you quickly find a person or vehicle of interest.

Access Control Manager (ACM) System
Works together with ACC™ software to produce action-based alarms, and notifications so you can respond quickly to events.

H4 Mini Dome Camera Line Offers discreet security with exceptional image detail.

H4 IR PTZ Camera Line Combines patented Avigilon self-learning video analytics with zoomable infrared (IR) technology to provide broad coverage and exceptional image quality in a range of lighting conditions and environments.

H4 Edge Solution (ES) Camera Line Provides an all-in-one intelligent surveillance solution that is perfect for remote locations and records video directly to an onboard solid-state drive.

H.264 Analog Video Encoders Convert standard analog video feeds into digital streams—a cost-effective way to include legacy cameras in a network-based IP-system.

Avigilon, a Motorola Solutions company, designs, develops and manufactures video, video analytics, artificial intelligence solutions, network video management software and hardware, surveillance cameras and access control solutions.

- 24/7 technical support by phone or online chat
- Complimentary software training
