

Protecting Patients and Staff

Avigilon provides proactive solutions to help protect patients and staff across hospital areas and locations, while securing technology and equipment.

Secure Access

Avigilon's Access Control Manager (ACM) System helps restrict access to designated wings, equipment rooms, and medication storage.

Powerful Search

Avigilon Appearance Search™ technology is a sophisticated artificial intelligence (AI) search engine that helps you quickly identify a specific person and track their route throughout the facility in real-time or during investigations.

Easy Integration

Avigilon solutions are built on an open platform and allow you to slowly migrate current analogue or hybrid systems to full IP without significant added cost.

Protecting Privacy

The Avigilon Presence Detector (APD) sensor utilizes impulse radar technology to accurately detect the presence of a person in areas where cameras are not appropriate.

Real-time Notification

Self-learning video analytics provide instant alerts of events to security operators, helping to improve event response times.

Avigilon Solutions for Healthcare

Self-learning Video Analytics

Recognise and detect the movements of people and vehicles, notifying operators of events that may need further investigation.

HD Multisensor Camera Line

Provides flexible scene coverage with one license and wire pull to save on installation, time, and cost.

H4 HD Pro Camera Line

Covers vast areas while still delivering exceptional image detail to zoom in, helping to identify and quickly respond to potential security events.

Avigilon Presence Detector (APD) Sensor

Uses impulse radar with self-learning radar analytics and accurately detects the presence of a person, even if they have stopped moving or are hidden; designed for indoor locations.

H.264 Analog Video Encoders

Convert standard analogue video feeds into digital streams—a cost-effective way to include legacy cameras in a network-based IP-system.

Avigilon, a Motorola Solutions company, designs, develops, and manufactures video analytics, network video management software and hardware, surveillance cameras, and access control solutions.

- 24/7 technical support by phone or online chat
