AVIGILON™
a Motorola Solutions Company

Helping Protect Your People and Assets

Protect your business. Help to keep customers, staff, and merchandise safe by securing your retail space, from parking lots to fitting rooms to staff-only areas.

Powerful Search

Avigilon Appearance Search™ technology sorts through hours of video with ease to quickly locate a specific person or vehicle across an entire site, helping to improve theft prevention, identify false liability claims, and reduce shrinkage.

Discreet Security

Low-profile design and high megapixel imaging helps detect incidents clearly and inconspicuously without deterring from the shopping experience.

Real-time Notification

Self-learning video analytics provide instant alerts of events to security operators, helping to improve response times and reduce vandalism.

Protecting Privacy

The Avigilon Presence Detector (APD) sensor utilizes impulse radar technology to accurately detect the presence of a person in fitting rooms or other areas where cameras are not appropriate.
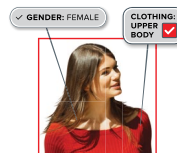

Easy Integration

Avigilon solutions are built on an open platform to easily integrate with your existing infrastructure to boost performance and capabilities.

Efficient Bandwidth Management

Avigilon solutions are built on an open platform, allowing you to leverage previous 3rd-party investments that are ONVIF® compliant.

Avigilon Solutions for Retail

Avigilon Appearance Search Technology
A sophisticated AI search engine that helps you quickly identify a specific person or vehicle and track their route throughout a site in real-time or during investigations.

Self-learning Video Analytics
Recognise and detect the movements of people and vehicles, notifying operators of events that may need further investigation.

H4 Mini Dome Camera Line
Offers discreet security with exceptional image detail available in 1–3 MP resolutions.

Avigilon Presence Detector (APD) Sensor
Uses impulse radar with self-learning radar analytics and accurately detects the presence of a person, even if they have stopped moving or are hidden; designed for indoor locations.

Avigilon Control Center (ACC) Video Management Software
Allows quick and easy review of live or recorded video with a simplified screen layout and intuitive controls, helping you detect, verify, and act on potentially critical events.

Avigilon, a Motorola Solutions company, designs, develops, and manufactures video analytics, network video management software and hardware, surveillance cameras, and access control solutions.

- 24/7 technical support by phone or online chat
- Complimentary software training
