

Audio made smart & easy.

AXIS C2005 Network Ceiling Speaker
and AXIS C1004-E Network Cabinet Speaker

The smart all-in-one network speaker system from Axis opens up a wealth of new possibilities. The speaker system is perfect for background music and for live and scheduled announcements in retail stores. They are preconfigured so you don't have to be a sound expert to set them up. In other words, the speakers simply work – and sound great – right out of the box. AXIS C2005 and AXIS C1004-E are based on Axis open platforms.
